Academic training

Multiplatform Software Development Engineering

Technological University
of Morelia
Graduation Class of 2026

Associate's Degree in Information and Communication Technologies

Technological University
of Morelia
Graduation Class of 2025

EXPERIENCE

Backend Developer (Intern) | PIHCSA

- I reduced audit times by implementing an IT Asset Management System that controls the lifecycle of critical hardware.

July 2025 - January 2026 (6 months)

Full-Stack Developer (Freelancer) | IMPA

- I increased administrative efficiency by 100% by migrating manual Excel processes to a Laravel platform with automated PDF generation.

April 2025 - July 2025 (3 months)

Infrastructure and Support

- Implementation of Lenovo SR250 servers and on-site network infrastructure diagnostics

Single School Day May 2025

Competencies

- **Backend:** PHP (Laravel), Python (Django)
- **Frontend:** JavaScript (React), HTML5, CSS3 (Tailwind).
- **Data:** MySQL, MongoDB, SQL Server.

Web Portfolio
